Subject: ROC for phone call w/Pete Dronkers

Returned phone call immediately today to Pete Dronkers. He had concerns that on whether we considered his comments submitted on the draft APP. I told that we are aware of the comments and were aware of the issues. I answered questions about our requirements, i.e., outer observation wells monitoring, do not consider a PMA but a AOR and AE area confirming contaminants are contained to that area, answered general questions about the comment and appeal process. Referred him to the SOB for information on the draft permit conditions.

Pete had concerns about delay in returning his calls and e-mail because he had questions. I was only aware of his one inquire on conformation of recent of his sending copy of his comments. I told him that he can feel reassured that if he sent them to my email and have received the comments. He answered that he had tried to contact me four times without getting ahold of me. I apologized but I was not aware of these multiple contacts to get a reply from me. He had questions too – I answered his questions above.

Thanks all, Nancy
